

PRESIDENT FOR FIGHTING NAVY

Strongly of the Opinion That a Purely Defensive One Would Be Almost Worthless

ITS FUNCTION IS TO DESTROY

Without Island Possessions Need for An Aggressive Naval Policy Would Still be Present.

Newport, R. I., July 22.—President Roosevelt after an adventurous night trip in the fog from Oyster Bay, during which his yacht, the Mayflower, ran down and sank a lumber schooner, rescuing the crew of six men on board, arrived here at 9:45 a. m. today and later at the naval academy, where he addressed a conference of nearly 100 naval officers representing all branches of the service, to consider plans for new American battleships.

President Roosevelt made a stirring appeal for a hard-hitting navy.

PRESIDENT'S ADDRESS.

In his address to the conference the president said:

"There are only a few things that I desire to say today to the conference, and what I have to say really is said less to the officers present than to the great bulk of my fellow countrymen outside. I could not speak to you technically, I can speak to my fellow countrymen who are deeply interested in the American navy but who sometimes tend to be misled as to the kind of navy we should have and as to what the navy can and ought to do.

"For instance, there are always certain number of well meaning, amiable individuals coupled with others not quite so well meaning, who advocate a coast defense navy. Such advocates illustrate a habit of mind as old as human nature itself—the desire at the same time to do something and not to do it. No fight was ever won except by hitting, and the one unchangeable principle in any war is to hit soft. That applies to the individual and it applies to the nation, and those who advocate a coast defense navy are advocating that we shall adopt as a national principle, the principle of hitting soft. I hope with all my heart that never will this nation of ours hit unless it has helped itself. I believe that the nation should scrupulously refrain from wronging or insulting another nation, that it should put up with a good deal in the way of misconduct on the part of others before going to war. But when this nation has decided to go to war, such war will only be excusable if the nation intends to protect its own interests until that opponent quits fighting.

"For the protection of our coast we need fortifications not merely to protect the salient points of our country, but so the navy can be free to protect any port. Let the port be protected by the fortifications; the fleet must be free to search out and destroy the enemies' fleet. That is the only function that can justify the fleet's existence. And that function cannot exist in the case of such a ridiculous fleet as the fleet would be if it were possible to use it for coast defense purposes.

"In any question of national policy when statesmen and political leaders embark on any given policy, they build up for themselves a time of humiliation and disaster in the future if they do not prepare to make that policy effective. There is something to be said from my standpoint not much, but still something for the theory that this nation shall never have any interests outside its own borders, and shall assume toward other nations an attitude of such meekness that no trouble can possibly come.

"It is a defensible policy. But a wholly indefensible policy would be to make administration under which it comes will indeed be guilty of folly if they use the fleet to protect any port. Let the port be protected by the fortifications; the fleet must be free to search out and destroy the enemies' fleet. That is the only function that can justify the fleet's existence. And that function cannot exist in the case of such a ridiculous fleet as the fleet would be if it were possible to use it for coast defense purposes.

THE WAR COMES.

"If war comes at any time in the future, that administration under which it comes will indeed be guilty of folly if they use the fleet to protect any port. Let the port be protected by the fortifications; the fleet must be free to search out and destroy the enemies' fleet. That is the only function that can justify the fleet's existence. appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing. Accordingly, it is not claimed that Syrup of Figs and Elixir of Senna is the only remedy of known value, but one of many reasons why it is the best of personal and family laxatives is the fact that it cleanses, sweetens and relieves the internal organs on which it acts without any debilitating after effects and without having to increase the quantity from time to time.

It acts pleasantly and naturally and truly as a laxative, and its component parts are known to and approved by physicians, as it is free from all objectionable substances. consistently to work for the assumption of responsibilities without making any provision for meeting the demands necessarily entailed by those responsibilities. To Porto Rico, aggressive and unarmored is to invite certain disaster and humiliation.

OUR NAVAL POLICY.

"We have taken the Philippines, but if we had not taken them, not a particle of difference would be made as regards the needs of our naval policy. There has been a division among this people as to the taking of the Philippines. There has been no division on the Monroe doctrine nor division on building, maintaining, policing and defending the Panama canal; no division about Hawaii and Porto Rico; no division about keeping Alaska, which though on the continent, is just as much separated as if it were an island; no division about asserting our superior right to defend and protect Cuba. Not one of the courses of action thus outlined can be followed excepting with a first class navy. The Monroe doctrine was in danger of falling not merely into disuse but into contempt, until we began to build up our navy. The Monroe doctrine won't be observed by foreign nations with sufficient strength to disregard it when once it becomes their interest to disregard it, unless we have a navy sufficient to make our assertion of the doctrine good. The Monroe doctrine and a navy is an empty boast and there exist but few more contemptible characters, individually or nationally, than the man or nation who boasts and when the boast is challenged fails to make good.

COAST DEFENSE NAVY.

"If we have a coast defense navy only we had better at once turn over the Panama canal to some stronger and braver nation which would not limit itself merely to a coast defense navy and could protect it. If we should limit ourselves merely to a navy that would confine us to defensive war—war would in the end be unsuccessful—it would be well at once to give up Hawaii, give up Porto Rico, give up Alaska and to say that we had no more interest in Cuba than the smallest powers. If we intend to be a great nation then we must first ourselves so that we may be able to make good that claim. That can only be done by building up and maintaining at the highest point of efficiency the United States navy."

BARONESS DE BASEUS TALKS OF CLINGING DRESS

New York, July 23.—Baroness de Baseus, who Mrs. Frank Leslie, has returned from a two month visit to London and Paris. She was accompanied only by her maid.

"I did not enjoy London and Paris a bit," said she, "and I am glad to get home again. Instead of being able to evolve any ideas of my own, I was used by everybody as a pincushion. Everybody stuck pins into me and I am full of pin pricks."

"A man may not understand this, but every woman will understand. I hope, now that I am home, I shall be able to put some of my ideas into form and show people that I am still alive and really have ideas."

"London and Paris are filled with Americans. The Anglo-France exposition draws them to London. One sees more Americans there than ever before."

"I enjoyed looking at the dresses very much. The paintings are also fine. All the French and many of the English women wear only the clinging dress, with no skirt beneath it."

"The skirt is out tight and the waist Artistique! Yes, on your side and slender women. Unfortunately not all the wearers of the clinging dress are young and slender. It is the director of gown much modified."

GIRL BEHEADED FOR MURDERING HER LOVER

Freiberg, Saxony, July 23.—Grete Reier, the 18-year-old daughter of the mayor of Freiberg, was beheaded last night some time between dark and dawn, in punishment for the murder of the man to whom she was engaged to be married. The executioner reached the city late night. He carried a box containing the ax with which he did his work, and brought with him, also a suit of evening dress.

The wearing of the garb is an ancient custom of the Freibergers. The preparations for the execution at the prison had been completed and the man did his work quickly and privately and departed. The king of Saxony had refused a pardon.

The personality of this young girl and her thoughtfully arranged murder of her fiance, a civil engineer, Prof. Reier, attracted international

CAMPAIGN FOR GOOD ROADS

One Inaugurated by Postoffice Department in Co-operation With State Commissioners.

RURAL DELIVERY AFFECTED.

If Highways Are Not Maintained at High Standard Service Will Be Discontinued.

Washington, July 23.—Some idea of what is being accomplished through the campaign inaugurated by the postoffice department in co-operation with state highway commissioners for good roads may be gathered from the following illustration:

On May 14, last, the attention of the postmaster at Peru, Ind., was called to the bad condition of the roads on rural free delivery routes out of that office. Through its postmaster, work was begun on seven of the 12 roads leading out of Peru. At a local meeting it was decided to request the detail of an engineer from the good roads bureau of the department of agriculture to construct an object lesson road along the course of a state law, contracts were let to the amount of \$5,000 for the construction of gravel roads in the county.

The postoffice department announced that it will continue to insist that all those who are receiving mail by rural delivery and who desire to continue as its beneficiaries must see to it that the condition of their roads is maintained at a high standard to enable carriers to deliver mail with ease and facility.

FARMERS' GOOD ROADS LEAGUE.

Chicago, July 23.—A dispatch to the Tribune from Grand Rapids, Mich., says:

H. H. Gross of Chicago, president of the Farmers' Good Roads League, speaking at the meeting of the National Convict Labor Good Roads association yesterday, advocated an issue of \$100,000,000 of bonds for road building. He suggested that the amount be apportioned among the states according to population. About 200 delegates were in attendance.

EVERLYN WALSH MARRIED.

Colorado Millionaire's Daughter Weds Son of John R. McLean.

Denver, Colo., July 22.—To the surprise of even her parents, Miss Evelyn Walsh, daughter of Mr. and Mrs. Thomas Walsh of this state, was quietly married this afternoon to Edward McLean, managing editor of the Washington Post, and son of John R. McLean. The young couple had been engaged for some time and Mr. McLean had been visiting at the Walsh country home at Wolhurst, near this city.

At 4 o'clock this afternoon they came to Denver in an automobile and, meeting Crawford Hill, proprietor of the Denver Republican, and his wife, and William Stapleton, managing editor of the Republican, they proceeded to St. Mark's Episcopal church, where they were married by Rev. H. S. Foster.

The bride wore a white broadcloth dress with a straw hat and plumes, and the groom was attired in a business suit of gray.

The couple returned to Wolhurst, where Mrs. Walsh was informed of the wedding. Tonight they proceeded to Colorado Springs, where they will make a brief stay at the Antlers hotel.

OLD MAN TICKLED.

Kansas City, July 23.—Thomas F. Walsh, father of Miss Evelyn Walsh, is in Kansas City on his way to Cincinnati to take part in the Taft nomination exercises. When he returned to the wedding of his daughter, Mr. Walsh said:

"I am tickled to death. I knew they were planning to marry. They had not let the day, and it was to be a long way off. I guess they got married to save me from giving away my daughter at the altar. I would not do that, you know."

"Mr. McLean is the finest young man in the country, but I hadn't just figured on giving my daughter away to him. They eloped to save me, I guess."

At her trial she admitted that she visited her fiance's house one evening, gave cyanide of potassium in drink she mixed for him and then, to make sure of his death, shot him in the mouth with his own revolver.

She then dropped the weapon at the dead man's side, placed a finger to her own favor on his desk, together with a note of good-bye, also forged, saying that he feared to lose her love through the revelations of a dishonorable liaison.

In addition to these papers, the girl left behind a package of forged letters purporting to come from a woman in Italy, a letter of Professor of medicine and threatening to tell Greta everything.

CASE OF MARY ROBB.

Examination to Determine Who Performed Criminal Operation.

Blackfoot, Ida., July 22.—In the preliminary examination continued here today to determine who performed a criminal operation on or about June 8, 1908, the testimony shows that B. J. Humphrey of Rigby made arrangements by telephone with Dr. Mitchell of Blackfoot to have Mary Robb come to him to be operated upon in making the engagement.

Humphrey said:

"This girl is something of a good fellow. She knows enough to keep her mouth shut; do the right thing by her."

Nelle Sayer, John Sayer and George Rite went with her to Blackfoot and left her there in good health. During the forenoon she was out some where, but returned to the hotel at noon looking sick and feeling weak. She went to bed, went to a private hospital that afternoon and died on June 13.

It was reported that she was operated on for appendicitis, but an autopsy was held, which showed the appendix intact and proved that a criminal operation had been performed, and that whoever made it blundered. The star witness for the prosecution will take the stand tomorrow.

WANT PRESIDENT TO ENDORSE TAFT POSITIVELY

Denver, July 23.—Frank H. Hitchcock, chairman of the Republican national committee, arrived here tonight in an automobile from Colorado Springs and in company with other members of his party, he will leave for the east tomorrow over the Burlington route for Chicago. Upon his arrival there he will confer with a number of political leaders from the middle west states and arrange a conference such as was had at Colorado Springs to organize for the campaign in the west.

The western politicians are very anxious that Judge Taft visit this section at an early day, and they will make an effort to induce President Roosevelt to come west. They told Mr. Hitchcock that the Republican situation in the west would be greatly improved if the president would come out in a positive statement in favor of Judge Taft and give assurances that the Republican candidate for president unquestionably will carry the politics of the present administration. This is a matter they intend to bring to the attention of the president and Judge Taft.

It is now certain that a great deal of campaigning in the west will be done by Senators Joseph R. Burton of Kansas, La Follette of Wisconsin and Dill of Iowa. It is possible these men will be kept in the western states practically all of the time. It is expected here that Senator Borah will be the western member of the executive committee of the national committee.
